Build amazing things
We're npm, Inc., the company behind the npm Registry and npm CLI.
We offer those to the community for free, but our day job is building and
selling useful tools for developers like you.

This utility will walk you through creating a package.json file.
It only covers the most common items, and tries to guess sensible defaults.
See `npm help init` for definitive documentation on these fields
and exactly what they do.
Use `npm install <pkg>` afterwards to install a package and
save it as a dependency in the package.json file.
Press ^C at any time to quit.
